DETAILED ACTION

Response to Amendment

1. Applicant's explanation of the instant invention in pointing the difference with the cited prior art was found to be persuasive.

Allowable Subject Matter

2. Claims 1 – 13 and 20 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Claims 1 – 13 and 20 recite, inter alia, a method for manufacturing an integrated circuit comprising a plurality of semiconductor devices including an n – type and a p – type transistor comprising the step of heating the circuit such that the deposited low-resistance material reacts with the polysilicon of both transistors such that compressive stress develops along the longitudinal direction of the p – type transistor. The art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

Conclusion

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2829

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. En, US 6,573,172 teaches a method of producing a CMOS device by forming stressed films in PMOS and NMOS transistors.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Asok K. Sarkar whose telephone number is 571 272 1970. The examiner can normally be reached on Monday - Friday (8 AM- 5 PM).
